## IonFootSpa - How To Create More Value For Your Clients and Double or Triple your Income

Dear Business Owner

Could you use an extra \$1500.00 or more each week? If so, read every word of this letter.

I'm Chris Vermeulen, CEO of Lenson International Corp. We make numerous *exclusive* health products. I've discovered a way for people like you to offer your clients, patrons or patients a unique and healthy experience that will add to your income, quickly and easily.

Even when the economy is bad, people will *always* be concerned about their health. People *always* want to look and feel better. They want to be pampered a bit too. Guess what? You can provide your clients with all of those things!

Let me explain . . .

## INTRODUCING THE LENSION ION FOOT SPA

Toxins. You've heard of them. **They're the poisons that get in our bodies and cause us all sorts of illnesses and discomforts.** Our COMMERCIAL GRADE foot spa uses a process called Electrolysis and Osmosis. It's **safe and effective**, gentle and easy to use. It's a system to use in your spa, health care practice, beauty shop or even your home.

### THE LENSION IONIC DETOX FOOT BATH IS THE PREMIER SYSTEM FOR SPAS, CLINICS AND BEAUTY SALONS.

Our commercial grade **Lenson Ion Detox Foot Spa** system uses a dual electrode module called an array. It's put in the water in the body of the spa. The array creates an electromagnetic field causing the **osmosis**. The ions act like **magnets** and **draw toxins from the body through the 2000 plus sweat glands that each of us have in our feet.** The system removes the toxins and deposits them in the water ~ freeing the body of the nasty poisons and causing your client to feel better and be healthier.

The water changes color and shows the exact location where toxins are being pulled from his or her body.

## Spa Water Analysis --- What the Water Shows About the Health of Your Client

The following chart is a guide only and should only be used as a reference.

<b>WATER COLOR</b>	<b>DETOXIFICATION - AREA OF BODY</b>
<b>Yellow-green</b>	Kidney, bladder, urinary tract
<b>Orange</b>	Detoxification of joints
<b>Brown</b>	Liver, tobacco, cellular debris
<b>Black</b>	Detoxifying from Liver
<b>Dark green</b>	Detoxifying from gallbladder
<b>White foam</b>	Lymphatic system
<b>White cheese-like particles</b>	Most likely yeast
<b>Black flecks</b>	Heavy metals
<b>Red flecks</b>	Blood clot material

As you can quickly see, this is exciting! Your clients or patients will love it. While they're enjoying the soothing foot bath, the nasty toxins will leave their bodies and the water will show where their problem areas are. In addition the ion foot spa will balance the bodies pH level allowing normal body functions to operate and energize the body.

This is an *exclusive* health benefit that people can get just from you when you sign up now. You will start making money as soon as you get your package and read the manual and information that comes with it.

In addition, we'll help you in every way we can. But, chances are, you won't need any help? Why? This is a very easy-to-use system. It almost runs itself.

Does that sound like what you're looking for? If so, read on.

So, how do you make money with this fantastic new product? Let me explain. You will earn from \$45.00 to \$50.00 for each thirty-minute treatment. If you have a beauty salon, you can offer it to patrons who are getting a manicure or pedicure if you like. It's a perfect fit.

"As both an allopathic and natural health practitioner, I have researched the market for just the right Ion Cleanse foot Spa for several years. Finally I found an amazing machine that I purchased from Lenson. The machine is safe, easy to use and works wonderfully. The service which I have received from Lenson has always been friendly, professional and very helpful. My experience with Lenson has been nothing less than rewarding. I would not hesitate to deal with Lenson again."

Jerry McTavish, London ON, Canada

If you own a clinic, spa or salon, you simply suggest it to your clients. Your assistant will quickly prepare the spa and start the client's treatment. The client will love it!

## LOTS OF REPEAT BUSINESS

That's right. **Your patients or clients will need 6 to 10 sessions.** Moreover, they'll need (and look forward to) a maintenance program of 1 - 4 treatments each month to help keep their toxin levels and blood PH in balance. Are you beginning to see the positive effect this will have on your income?

Let me tell you more about this exciting spa and you'll understand why people will look forward to paying you a visit and paying the cost of the treatment.

The machine is a futuristic foot bath, which has a built-in computer system. It uses warm salt water charged with a positive or negative ion charge, which detoxifies the body. The machine plugs into a standard outlet and runs for thirty minute treatments with its pre-programmed settings.

We have pre-programmed our foot bath for an important reason, and that is to have a product which is 100% safe, effective and easy to use. In fact, with other machines if you don't know what you're doing, you can injure your clients because machines can produce the wrong polarity charge due to user error. This will convert the pH level into a downward spiral into the acidic level! **That WON'T HAPPEN WITH THE LENSON IONIC DETOX FOOT SPA.**

We designed our two models to be safe and easy to use. The one you will receive is designed for commercial use. It's strong and durable.

"As a mother I needed to find a way keep my family healthy. I purchased a Lenson Ion Cleanse in 2006 and we all use it, my kids, my husband and myself. My husband sleeps better at night, my daughters acne has cleared up and I've lost weight! This is the fastest and easiest Detox available, trust me, I did my research. Since then I've started my own business going house to house with my Lenson Cleanse and offering treatments, I've done so well I was able to quit my full time job and only work part time! I'm a big believer in Lenson products and highly recommend them."
